

Dear Patient,

We welcome you to our practice.

We founded iMIS to offer high quality and compassionate spine care to patients here in Florida and from around the globe. We believe that you should not have to compromise on the quality of your care and that Southeast Florida has the perfect setting for your recovery after spine surgery. You will have no need to travel out of your way to the Northeast for MIS spine surgery.

About Our Team

We are building an experienced team of spine surgeons and support personnel. I am a Board-certified Spine Surgeon, educated and trained at Ivy-League Institutions in the Northeast before moving to South Florida. My degrees are from Columbia University, Harvard Medical School, and I was trained at Massachusetts General Hospital, Brigham and Women's Hospital, and Beth-Israel Deaconess Hospital in Boston. I was the Chief Spine Surgeon in the department of Orthopedics at the University of Pennsylvania before moving to South Florida,.

About Our Practice

Our practice will offer you a wide breadth of technical expertise in minimally invasive surgeries (MIS) of the entire spine using the newest available techniques. We will strive to meet all our patients' individual needs through comprehensive evaluation and treatment designed to help you achieve an active, pain-free lifestyle.

Patient-Doctor Relationship

You will be happy to know that we will continue to handle each and every visit with care and we never rush our patients out of the office. With each visit to iMIS, you our patient, should have a clear understanding of your spine problem and be able to make an informed decision as to your preferred treatment.

1411 N. FLAGLER DR. #6400, WEST PALM BEACH, FL 34401

At the end of your visit to iMIS, we believe you will feel that you received the best care available. In return, we hope you will build a lifelong individual relationship with us.

Thank you for trusting your care to our expert team.

Sincerely,

Kingsley R. Chin, M.D.
